Loadout Belt and Storage Pad Expansion
Approval letter dated 6 July 1992

92E all

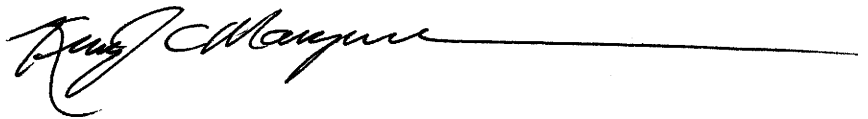

Pages 3-86 and 3-89 (8/92) updated to incorporate all of the issues approved and noted with this correspondence.

This leaves Division Order DO-92A, BTCA Areas, as the only major open issue submitted 8 May 1992 that has not been fully closed. Please notify Co-Op as soon as your review of the BTCA Area material is completed. Two minor issues remain unresolved;

1. No comments have been received concerning the boundary extension at Sed Pond A. I understood that the discussion held at the Division with Hugh Klein and follow-up letter (M.E.C. dated 9 July 1992) had clear this issue. The enclosed bonding calculations include this expansion.
2. No official comments have been received from the Division to give approval for Ditches D-10D and D-10aD.

I hope that the format of this letter has made things clear. I did not include the revised maps with this correspondence. The latest certified revised maps will be forwarded to the division in the next few days. Please contact me if there are any questions. Thank you for your cooperation with these matters.

Thank you,
